## ABOUT GREEN VALLEY RACEWAY...

Green Valley Raceway has recently been lengthened to a distance of over 2 miles. The course in its new form, 2.1 miles, is one zooming straight of 3900 feet at the end of which, the drivers cross a short bridge, make a sweeping 180° turn, cross-over the return bridge and enter the 1820 foot grandstand straight. The drivers then enter the "Horse Shoe" turn which has a 90° turn leading into the 1700 foot back straight to help prove a Machine's merit on the long uphill pull.
